THE NEW SCHOOL

**MILANO**

## YOUR FIRST SEMESTER

Full-time students normally take three to four courses (9-12 credit hours) per semester. Full-time students on the 16-month accelerated path take 12 credits.

Part-time students normally take two courses (6 credit hours) per semester.

Given the time commitment required for graduate study 6 credit hours is the course load recommended for working professionals.

You may need to take a certain number of credit hours to maintain eligibility for student loans, some scholarships, etc. *Know what is required.*

**Transfer Credit and Core Course Waivers** All requests for transfer credit and core course waivers are considered on an individual basis and approved by the Chair. The total number of transfer credit hours that can be applied toward the degree is 9. Typically core course waivers are given to students who have recently mastered a significant amount of related subject matter. Waiving one of the core courses requires that students still complete 42 credit hours. To learn more, please contact Chair Rachel Meltzer [meltzerr@newschool.edu](mailto:meltzerr@newschool.edu),
